Spec Code Data
(Manually entered)

Spec Code Title.
(Manually entered)

*Rules defines which combination **will Not** create a record(s). As example **DIM4** will not be available with **9016,** and **40ks** is not available with **H3** (syntaxes could be different, but needs to be clear as it will be entered manually)*

Columns that Rules will be referring to. Preset, cannot be changed by user
