

## Wedge

Wedge is an ultra-small scale linear product that delivers low angle, smooth patterned light to an adjacent surface. Perfect for wall mounted uplight, the Wedge delivers light evenly to the ceiling, in a forward distribution that is nearly horizontal to the top of the fixture. As a ceiling mounted wallwash, the Wedge can be mounted close to the wall and deliver an even wash of light. Use as individual luminaires, or in continuous row mounting, the Wedge can be specified to absolutely any length.
